

Empower Your Parental Control!

Take action!

Decide what platforms you'd like to enable parental controls on and have a conversation with your children prior to enabling the restrictions

Reminder

It's important to remember that none of these methods is 100% foolproof. Regularly review applied parental controls

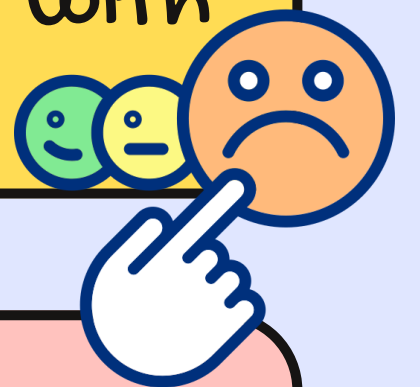

70% of children accidentally view pornographic or violent content while doing research for homework

30% of underage internet users admit to deliberately searching for explicit content out of curiosity

70% of teenagers know exactly how to hide their online habits from their parents

82% of kids had a negative online experience such as inappropriate contact with a stranger

Only 15% of parents are aware of what their children post on social media
